

Spomladansko strokovno srečanje Združenja pnevmologov Slovenije

April 4th-5th 2025

Bled, Slovenia

Rikli balance hotel

Scientific programme

Friday 5th of April, 2025

08.30-08.40: Introduction

08.40-09.45: Basic science in severe asthma: what is new (Peter Korošec, Ramesh Kurukulaaratchy)

08.40-09.05: Peter Korošec: Basic science in severe asthma: Pathophysiology and mechanisms

09.05-09.30: Matija Rijavec: Basic science in severe asthma: Biomarkers and genetics

09.30-09.45: Discussion

09.45-11.15: Problematic case reports with discussion/workshop-1 st part (Ramesh Kurukulaaratchy, Sabina Škr gat)

9.45-10.05: Saša Rink: Development of Allergic Bronchopulmonary Mycosis During Benralizumab Treatment

10.05-10.25: Žiga Piletič: Steroid burden in asthma – a case report

10.25-10.45: Anamarija Štajduhar, Marina Lampalo: Complicated asthma in an obese patient

10.45-11.05: Ivan Čekerevac: Hypereosinophilia and severe asthma

11.05-11.15: Additional discussion time (if needed)

11.15-11.35: Coffee break

11.35-13.20: Perspectives and clinical outcomes in severe asthma (Stefano Del Giacco, Mihaela Zidarn)

11.35-12.05: Ramesh Kurukulaaratchy: Comorbidities and Multimorbidity – Important New Perspectives in Severe Asthma

12.05-12.30: Stefano Del Giacco: Remission in asthma

12.30-12.55: Sabina Škr gat: Outcomes and challenges in severe asthma with fungal sensitisation

12.55-13.20: Discussion

13.20- 13.40: Satellite symposium AstraZeneca Stefano Del Giacco, Unlocking Airways: Benralizumab's Pioneering Role in Severe Asthma Management

13.40-14.30: Lunch

14.30-16.30: Reports from clinics and real life studies

14.30-14.45: Sanja Hromiš: Weight-adjusted biologic therapy – are there some benefits?

14.45-15.00: Mirna Vergles: A new rhythm in severe asthma management: extending the intervals for biologics?

15.00-15.15: Irena Šarc: Biologic Therapy in eosinophil COPD: Insights from Our Clinical Experience.

15.15-15.30: Peter Kopač: The Significance of Eosinophil Location in Severe Asthma: Insights from Induced Sputum (Kopač)

15.30-15.45: Luka Kunej, Škrgat Sabina: Clinical and molecular response to dupilumab treatment in patients with eosinophilic asthma

15.45-16.15: Discussion

16.15-16.35: Satellite symposium AstraZeneca Mark Kačar, Saša Rink, Natalija Edelbaher: TSLP - This Special Little Protein, what it does and how it can help us.

16.30-17.00 Coffee break

Parallel section I

17.00-18.15 Problematic case reports with discussion-2nd part. (Ivan Čekerevac, Željko Vrbica)

17.00-17.20: Marija Gomerčič Palčič: Patient with Severe Eosinophilic Asthma and CRSwNP Who Developed EGPA While Being Treated with Benralizumab

17.20-17.40: Jasmina Bošnjic: Asthma and pulmonary embolism

17.40-18.00: Špela Kosi: The Importance of Diagnosing and Treating OSA in Patients with Severe Asthma

18.00-18.15 Additional discussion time (if needed)

18:15-19:05 Satellite symposium Sanofi. From Clinical Trials to Real Life: How Dupilumab is Changing Practice (Jure Urbančič)

Jure Urbančič: Introduction: T2I is the common denominator

Mirna Vergles: Severe asthma: Can clinical remission be achieved?

Mihkel Plaas. Is precision medicine possible for CRSwNP?

Panel discussion

Parallel section II

17:00-19:10 DROBOCELIČNI RAK (Katja Mohorčič, Zala Leštan Ramovš)

17:00 Duška Vidovič: Drobnocelični rak pljuč: kje smo in kam gremo ?

17:10 Katja Adamič: Urgentna stanja pri bolnikih z rakom pljuč

17:25 Dimitrij Kuhelj: Vstavitev opornice v zgornjo votlo veno

17:40 Eva Ćirić: Ali je drobnocelični rak pljuč lahko ozdravljiva bolezen?

17:55 Loredana Mrak: Kaj je novega v sistemski terapiji drobnoceličnega raka pljuč?

18:10 Razprava

18:30 **SATELITSKI SIMPOZIJ ASTRAZENECA** Marina Ćakš: Izkušnje zdravljenja z imunoterapijo pri slovenkih bolnikih z drobnoceličnim rakom pljuč

18:50 **SATELITSKI SIMPOZIJ MSD** Urška Janžič: Neželjeni učinki imunoterapije

20.00: Dinner

Saturday 05.04.2025

Comorbidities in severe asthma and MDT approach

Part 1 (Matevž Harlander, Sabina Škrgat)

8.15-8.35 Urbančič Jure: EIT specialist in severe asthma patient

8.35-8.55 Hočevar Alojzija: EGPA from rheumatologist perspective

8.55-9.15 Janić Miodrag: Diabetes/obesity/severe asthma

9.15-9.35 Ana Komlenić : Psychologist- Basic personality traits of severe asthma patients and their impact on treatment outcomes

9.35-9.50 Discussion: part 1

9:50 Satellite symposium Berlin-Chemie Peter Kopač: Airway Remodeling in Asthma and the Effects of Mepolizumab Treatment

Part 2: (Ramesh Kurukulaaratchy, Sanja Hromiš)

10.05-10.30 Zihelr Kristina: The Challenge of Comorbid OSA in Patients with Severe and Difficult-to-Treat Asthma

10.30-10.55 Matjaž Fležar: Functional algorithm for severe airway disease; from diagnosis to follow-up and fenotipization

10.55-11.15 Discussion: part 2

11.15 End of the conference and closing remarks (Sabina Škrgat)

Farewell cocktail
